# AJPS TEACHERS ORIENTATION PROGRAMME- Academic Year 2022-23

Mrs. Divya- Human Resources Department

**Amara Jyothi Public School organised an all inclusive and embracive Teachers Training Programme for the current Academic Year 2022-23. The Human Resources Department was significant in formulating the whole programme and making it an edifying experience for the teaching fraternity.**

**The Vision and Mission Statements of AJPS were meticulously presented. Teachers were informed about the Dress Code and Language to be used for any communication within the school premises. Important data points like Working Hours, Punctuality, List of Holidays, Leave Policy, Code of Conduct were also comprehensively discussed. The newly inducted AJPS teachers thoroughly understood the modalities and points for consideration. A well-conceived orientation programme on the newly introduced concept of 'School Cinema' at the AJPS Premises was also organised for the teaching fraternity.**

**AJPS Principal – Mrs. Geetha Somanathan took an inspiring interactive session for the promising pedigree of teachers. The emphatic concept of the 'Power of Positivity' was shared with the teaching community. Principal Ma'am emphasised upon developing various skills for students and motivated them to think out of the box. The profound concept of 'Experiential Learning' was discussed in detail and the adage of 'Making a Difference' was shared with a refreshing standpoint through a video presentation. The School Principal exhorted the teachers to develop the right attitude and reiterated the role of teachers in fostering the spirit of innovation rather than readymade knowledge or rote learning. A self-assessment activity on gauging one's qualities and traits was another highlight of the thought-provoking interactive session.**

**The AJPS Teachers Orientation Programme was a huge success wherein the teaching staff members carried enduring memories of the immensely gratifying session.**

*Amara Jyothi Public School heartily welcomed back its student fraternity with open arms!! The school campus was bustling with students overwhelming the school premises with their vibrant presence. The AJPS family now feels complete with each of you joining back to school once again.*

***WE REALLY MISSED YOU!!***

# Our Chairman Speaks

The pandemic has a ubiquitous presence. We have been living with the Coronavirus for almost two years in succession. In hindsight, this journey has been exacting- every single home at a global level has been at the receiving end. However they say there is a light at the end of every tunnel. Its a light that ignites and sparks the fireworks of new beginnings, new dreams and a new year, on a clean slate.

The school gates have warmly welcomed the students of the AJPS family for the academic year 2022-23. We have left no stone unturned in providing them with a clean, safe and secure learning environment. As the time elapses we will see students getting more settled and cushioned in their 'home away from home' experience. We have also commenced treading the path of Innovation. The revolutionary, ATL Tinkering Laboratory in our school campus is a fine example of our pursuit of exploration and experimentation, beyond textbooks. These laboratories are fully functional and the student fraternity is reaping the benefits of such a path-breaking concept. We have always engrained in our mission and vision that children should experience the joy of learning- aligning with the same viewpoints, facilities like Robotics, Coding, Abacus and Vedic Maths is being bestowed on our beloved student community. A myriad of classroom activities, mental and physical well being initiatives, Club Memberships, Physical Education & Yoga classes have been embedded in the school curriculum too. The AJPS Monthly School Magazine- 'SPLASH' has received a tremendous response and we will hereby endeavor to foster the creative, writing and literary skills of children. The NCC and the inclusion of AJPS in the Air Force Troop has also received great accolades from the parent and student fraternity- the tenets of self- discipline, self - reliance coupled with theme based camps will go a long way in shaping the character of the younger generation of students. We are also immensely glad to share that the AJPS Transportation system has now been outsourced to the safe and efficient hands of - 'Happiness in Transit Mobility Pvt. Ltd.,' we surely hope to upgrade the travel experience of our AJPS students for the forthcoming academic year. We have also introduced the promising concept of 'Lady Child Care' wherein female personnel is robustly trained to ensure the safety and security of each child. The glorious concept of 'School Cinema' has also been embraced by the AJPS Management from the current academic year- a versatile medium for imparting key life lessons, using the power of Cinema.

We are sure with so many offerings, services, enterprise and initiatives for our AJPS student fraternity, the circle of learning will get completed and it will create a halo of success and character building for our young, dynamic students. My Best Wishes to Teaching , Non- teaching staff Members, Parents and Students of the AJPS family for a rewarding Academic Session 2022-23 ahead.

*Welcome Back to Amara Jyothi Public School !*

**Shri Srinivasa KN**

**Chairman- Amara Jyothi Public School**

## FROM THE PRINCIPAL'S DESK

# Progressive Learning – Yesterday, Today and Tomorrow

'You cannot teach today the same way you did yesterday to prepare students for tomorrow.'-John Dewey

- Mrs. Geetha Somanathan

The world has become 'small' now and knowledge is at our finger tips. How do we prepare our students for tomorrow? What sort of skills/knowledge will they need? I believe that our students will be prepared for tomorrow through the education that they have received today.

Students need to learn through innovation, creation, collaboration, communication and technology and this sets a congenial learning atmosphere. School should adopt learning programmes that encourage students to be engaged and equip them with the skills to express their opinions and make a difference in the environment around them. As educators, it is our prime responsibility to develop curious minds. In instilling curiosity, we nurture the mind to get stronger, encouraging one to ask questions and seek answers.

Today's children need to be encouraged not only to think out of the box but also to shoulder responsibilities and discharge them effectively. We need to inculcate self-discipline in our children. If they are self-disciplined, they are in control of themselves, their actions and their reactions which is a sign of inner strength. This in turn helps them to overcome procrastination, laziness and indecisiveness. The possession of this skill leads to self-confidence, self-esteem and consequently, to happiness and satisfaction.

UNESCO states that education that provides creative and emotional development in children and the skills, knowledge and values to help them grow into responsible and productive citizens is considered quality education. It is important to understand that learning does not stop at school and partnership between teachers and parents is important to ensure learning happens even after school hours.

# Main events

## PARENTS ORIENTATION PROGRAMME:

AJPS welcomed the new academic year 2022-23 with great enthusiasm and zeal. A well-organised Parent Orientation Programme (across all segments) was presented in the 1st week of June 2022, to disseminate information, share objectives and cherish, constructive ideas for the forthcoming academic year. It was heart-warming to see that AJPS parents took valuable time off their busy schedule and attended the meet. The parent fraternity was as excited and enthusiastic as the school members. The key points of discussion in the event were about the holistic development of our students in both scholastic and co scholastic areas. It began with introduction of the staff members, school timings, homework schedule, club activities and various other learning objectives adapted by the school like School Cinema, ATL, Child Safety Programme etc. The event turned out to be a great success with parents leaving the campus with a smile and satisfaction.

## WORLD ENVIRONMENT DAY 6TH JUNE 2022

AJPS observed World Environment Day with great mirth and jubilance. 'SAVE THE SOIL 'was the motto for the World Environment Day celebration at our school premises. The Guest of Honour for the event was Mr Sivakumar Swarna, an IT professional and a volunteer for the 'Save Soil Movement'. Under the able guidance of Mr. Sivakumar, our NCC students planted saplings to make our school campus greener and healthier. Many Co- Scholastic activities were organised by the students of the ECO club to create awareness and celebrate the best gift given to mankind- NATURE!!

## WORLD MUSIC Day 21st June 2022

There is nothing in life that can move a person like, music does! Music lessens stress and increases positivity in a person, instantaneously. It is an integral part of our life which has the power to create magic in its own beautiful ways. History states that power of music is such that it had the capability to bring down rain ! Science states that music helps to improve focus, stimulates memory and is healthy to the body. In light of the same, AJPS celebrated World Music Day with great fervour. A musical festival was organised where the students were encouraged to display their talent in music. An indigenous band was set up which promoted contemporary music. It was a spectacular view to watch the students nod and snap as they enjoyed their favourite tunes.

# NEW AGE CAREERS

**Career is a lifetime work that people do for a living. The type of career you choose can depend on your personality, status of life, money requirement, interests, etc.**

**New age careers,** as the name says are the modern time career options. Many new careers have been created and numerous options are provided to people to choose what they want to become. New age skills are crucial. Till a couple of years back career choices were limited to doctors, engineers, lawyers and other government jobs. New jobs have been expanding in science and commerce streams. For starters, people who are compassionate, like to investigate things and good in logical thinking can pursue clinical research, virology, epidemiology, etc. On the other hand, people who like to work in teams and enjoy presenting and communicating can pursue event management or public relations. People who are analytical by nature and like to peruse information can pursue a career as political/policy analyst. IT sector is hiring many people to keep up with the rapid development and advancement.

New age career options are replacing traditional career options. People want to taste new things and enjoy their life.

## WILDLIFE PHOTOGRAPHY

Wildlife Photography is one of the most exciting Career Options one is zeroing on in the present times. It is particularly viable for the ones who love travelling and are nature lovers. The path trodden is not easy though. Patience is one of the key virtues which goes a long way in pursuing it as a career option. To begin with, the aspiring Wild Life Photographers should just get hold of their cameras and start exploring. They need to brush up their concepts of different angles, lighting, subject knowledge etc. The financial returns may not be abundant in the beginning, but will eventually come with rewarding experiences. In India, many colleges and universities are providing **Undergraduate and Post Graduate Diploma/Degree in Photography. You can enrol in one of them and put your first step forward towards this thrilling career option.**

## FIREFLY LANE BY KRISTIN HANNAH

This beautiful book revolves around the profound concept of friendship and good faith. It is the story of two school friends who are quite different from each other in terms of personality, ambition and their perspective towards life. There are a lot of twists and turns in the story wherein both girls were meant to make hard choices. Multiple human emotions and its confusing tapestry has been dealt with ease and use of lucid language in the book.

The two girls knew each other too well- hence have hurt and healed each other on various occasions in the book. The books explores these situations in very matured ways of creative writing. The book is very practical and makes one feel that the story can happen with any of us as far as the emotion of friendship goes for people.

Did You Know!! - Kristin Hannah is the award-winning and bestselling author of more than 20 novels including the international blockbuster, The Nightingale, which was named Goodreads Best Historical fiction novel for 2015 and won the coveted People's Choice award for Best Fiction in the same year

# FUN TIME CORNER

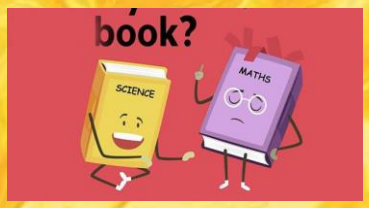
WE START WITH A QUOTE BY MAGNUS CARLSEN
"WITHOUT THE ELEMENT OF FUN, IT'S NOT WORTH TRYING TO EXCEL AT ANYTHING".

*Having fun is good as it helps boost our creativity, energy, productivity and helps lighten ourselves up. It facilitates informal learning and brings out positive emotions of increased well-being.*

## JOKES WITH FRIENDS

**What did the science book say to the math book?**

❖ **Wow, you've got problems.**



**To whoever stole my copy of Microsoft, I will find you.**

❖ **You have my word!**

## LAUGHING MOMENT

## Puzzle Time

❖ *Why did the baby strawberry cry?*
*His parents were in a jam.*

❖ *Why did the scarecrow win an award?*
*He was outstanding in his fields.*

❖ *What kind of jewellery do rabbits wear?*
*14 carrot gold.*

**Q) I am tall, when I am young and I am short when I am old- Who am I?**

**Q) I have a head and a tail that will never meet. Having too many of me is always a treat. What am I?**
