## THE BROWN RIVER

Dark brown is the river, golden is the sand,  
It flows along forever with trees on either hand.  
Green leaves are floating with castles of foam,  
Calling for the loved ones to come back home.  
On goes the river and out past the mill,  
Away down the valley, away down the hill.  
Away down the river, a hundred miles or more,  
Oh little children, shall I bring my boat ashore?

*Laksh- Std. VIII*

## ECHOES OF CHILDHOOD

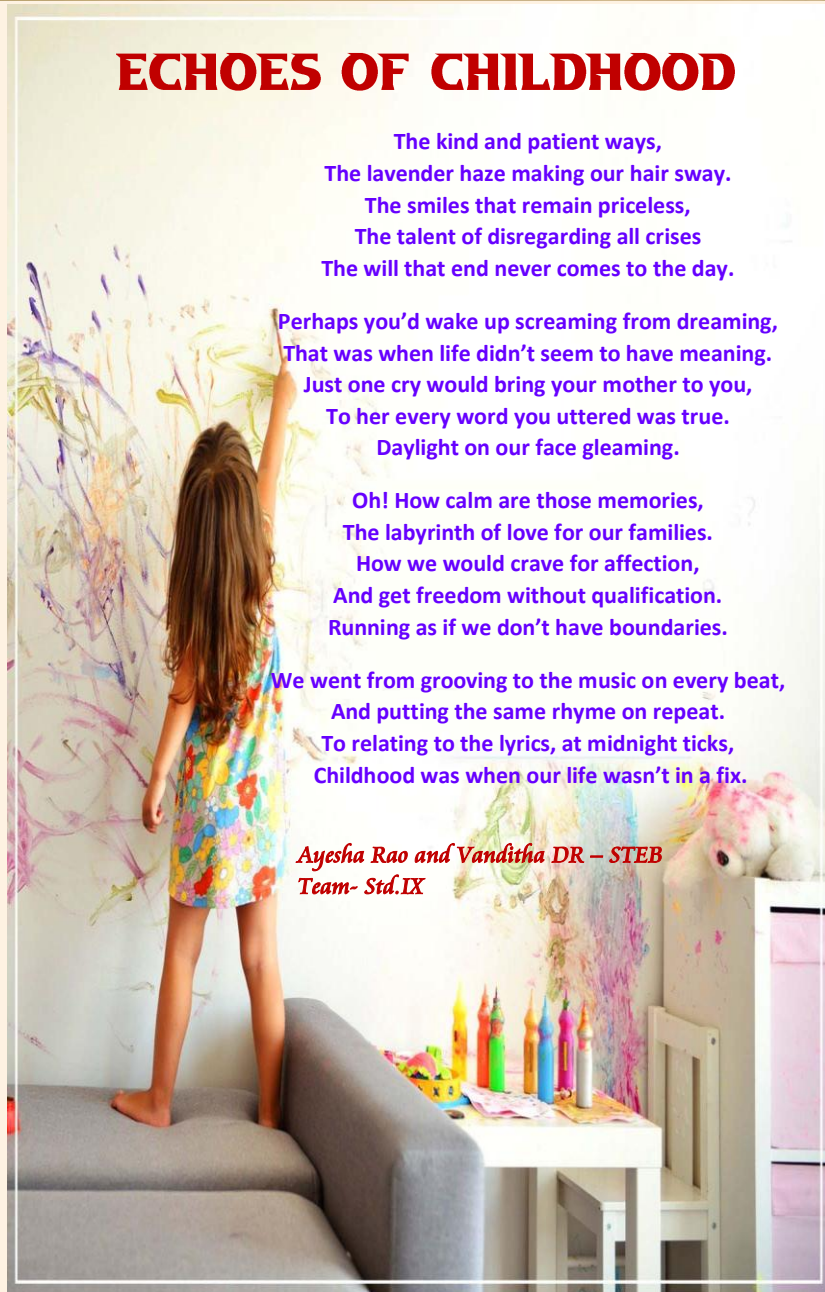

The kind and patient ways,  
The lavender haze making our hair sway.  
The smiles that remain priceless,  
The talent of disregarding all crises  
The will that end never comes to the day.

Perhaps you'd wake up screaming from dreaming,  
That was when life didn't seem to have meaning.  
Just one cry would bring your mother to you,  
To her every word you uttered was true.  
Daylight on our face gleaming.

Oh! How calm are those memories,  
The labyrinth of love for our families.  
How we would crave for affection,  
And get freedom without qualification.  
Running as if we don't have boundaries.

We went from grooving to the music on every beat,  
And putting the same rhyme on repeat.  
To relating to the lyrics, at midnight ticks,  
Childhood was when our life wasn't in a fix.

## EXAMINATION- STUDENT'S PERSPECTIVE

Students encounter multiple stages in their lives- but there is one stage, they dread the most- Examinations. It revolves around the concept of fetching marks and the circumstances to obtain them is incomprehensible! In order to be successful in life, it is commonly said that we have to excel in our examinations. Well, a single piece of paper cannot decide a person's future. Henry Ford, Steve Jobs, Bill Gates and many other renowned names didn't complete their education.

However, this doesn't mean that examination is to be ignored. Examination is imperative in multiple ways- it helps a student improve and develop themselves as an individual, gives them values, extraordinary thinking and self-assessment. Examinations are a reflection of the insurmountable competition awaiting for us in this competitive world. Examinations are a firm way of making us sticklers of discipline, routine and commitment. So let's embrace examinations with a positive mindset and arrive upon a win-win situation for each of us.
