## AJPS TEACHERS TRAINING PROGRAMME 2024

Our esteemed Chairman- Shri K N Srinivasa has always catapulted the idea of an efficacious Teachers Training Programme, quintessential to a school's progressive vision and ecosystem. It entails with itself a potpourri of learnings, takeaways and new vantage points for the teaching fraternity to ingrain in their tapestry of teaching. Ms. Sarada Chandrashekar- Academic Head, Whitefield Global School and Founder, IRA Academic Services heralded the Teachers Training Programme with great aplomb, imbuing new learning pathways for the AJPS Faculty Members. The two-day Teachers Training Programme, crafted by Ms. Sarada Chandrashekar was held on the 27<sup>th</sup> and 28<sup>th</sup> May, 2024. The first day primarily focused on versatile concepts like 'Multiple Intelligence and Pedagogy' wherein innovative and ingenious teaching strategies were explored, fastidiously. The second day deeply delved into impactful topics like 'Assignments and Assessments' emphasizing on cogent evaluation methods. Many cardinal topics envisaged lesson plans, Bloom's taxonomy, learning outcomes and objectives, domains of learning, and testing.

The comprehensive Teachers Training programme by Ms. Sarada Chandrashekar was luminous in its outcomes. The AJPS coterie of teachers embraced valuable insights and practical tools for enhancing their educational practices, learning techniques; fostering a deeper sense of academic and learning eminence.

## My Journey with Books

Sai Pooja- Std. 7

I have always been a voracious reader. My journey with book reading has been quite prolific. However, the book that I adore the most in my bookshelf is – 'How I taught my grandmother' written by Mrs. Sudha Murthy. It is an exceptional and interesting book and is a must read for my dear friends. In this book, the author describes how the narrator taught her grandmother to read. The grandmother depends on her granddaughter to read her favourite novel 'Kashi Yatre'. As the time elapsed, the grandmother with her hard work and determination learnt to read the alphabets at the age of sixty-two! She also respects her teacher (her granddaughter) by touching her feet irrespective of age, gender, relationship. Her granddaughter was also humbled by her grandmother's gesture as Guru Dakshina.

## Incredible India

Ankitha M Y- Std. 7

An unforgettable journey,  
Through valleys and plains.  
Something to be noted,  
With lots of memories being quoted.

Take a look at the tranquil rivers,  
And feel the breeze that gives you shivers.  
The snow sliding off the leaves,  
With many affectionate people to meet.

Take a look at the springs flowing,  
And feel the immense pride pouring.  
Snow caps and spiritual places,  
Where varied literature and heritage traces.

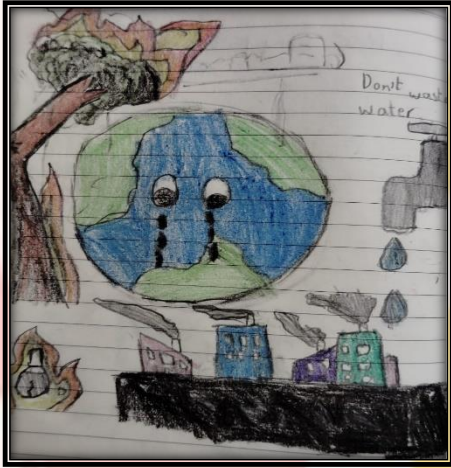

Through twirling roads and mountainous heights,  
Underneath the stars, a beautiful night.  
The aura of joy in the cool breeze,  
I love India, oh yes please!

## The Enchanter Krishna

Pragathi S – Std. 9

Born in the Prison, As the eighth son,  
Stepping into the city, named Vrindavan.  
He made every corner heaven,  
His stories, miracles teach us a lesson.  
The sound from his flute is sweet,  
I am always delighted to worship his lotus feet.  
Looking after cattle, fighting many battles,  
He guides us until the chaos settles.  
The Radha Krishna love and worship,  
The devotion, selflessness not a day skipped.  
His grace cannot fit in a page,  
The love, the blessings he gave at a young age.  
He is the protector of the universe,  
His hands will always save us from worse.  
The enchanter, the lovable prankster,  
He is the almighty, the ultimate Master.

The Eiffel Tower in Paris, France, can be 15 cm taller during the summer due to thermal expansion caused by the heat. This iconic landmark's height can vary slightly depending on the temperature!

Honey never spoils? Archaeologists have found pots of honey in ancient Egyptian tombs that are over 3,000 years old and still perfectly edible. Honey's low moisture content and acidic pH create an environment that prevents the growth of bacteria and fungi.

The world's smallest mammal is the bumblebee bat, which is about the size of a thumbnail and weighs less than a penny. It's found in Thailand and Myanmar and is an excellent example of the diversity of life on our planet.

Octopuses have three hearts and blue blood. Two hearts pump blood to their gills, while the third heart pumps it to the rest of their body. Plus, their blood is blue because it contains a copper-based molecule called hemocyanin, unlike the iron-based hemoglobin in human blood.

The number of possible unique chess games is estimated to be around  $10^{120}$  the estimated number of atoms in the observable universe is about  $10^{80}$ . This means there are exponentially more possible chess games than there are atoms in the universe.

## INSPIRATIONAL QUOTES

"Cleanliness is a habit that keeps the body, mind and environment happy, healthy, simple, neat and delightful."

"Not a hot planet, but a beautiful earth with a clear sky, clean water and fresh air is our commitment to the next generation."

## SWACHATA: THE PATH TO CLEANLINESS AND WELL-BEING

**NAGA ADITI**  
Std. 9

In every society, cleanliness is not just a virtue but a necessity. It's not merely about aesthetics; it's about health, hygiene, and environmental sustainability. In India, the Swachh Bharat Abhiyan, launched in 2014, highlighted the importance of cleanliness and sanitation at a national level. However, the concept of "Swachata" goes beyond just sweeping streets and disposing of garbage. It encompasses a holistic approach to cleanliness that touches upon various aspects of life. Swachata, a term derived from Sanskrit, signifies cleanliness, purity, and hygiene. It's not limited to physical cleanliness but extends to mental and environmental hygiene as well. The essence of Swachata lies in maintaining a clean and healthy environment for oneself and others.

It's about developing habits and practices that promote overall well-being. Each person plays a crucial role in maintaining cleanliness in their surroundings. Whether it's properly disposing of waste, keeping personal spaces clean, or adopting hygienic practices, everyone contributes for a cleaner society. Swachata is not just a word; it's a way of life. It's about fostering a culture of cleanliness and hygiene that permeates every aspect of society. By promoting individual responsibility, public awareness, behaviour change, technological innovation, and collaborative efforts, we can realize the vision of a clean and healthy nation. Swachata is not just a goal to be achieved; it's an ongoing journey towards a better future for all.
