The Power of Kindness

In a world often inundated with conflict, kindness stands out as one of humanity's most effective tools for creating impactful change. While acts of kindness may seem small their impact can ripple far beyond the initial gesture. The power of kindness lies in its ability to be more empathetic and see ourselves in others shoes.

At its core, kindness is a universal language. It creates connections between people from all walks of life. A smile, a helping hand, or a few uplifting words can bridge gaps that otherwise seem impossible to fill. In times of adversity, such simple actions become lifelines, reminding people that they are not alone, that someone cares about their well-being. These moments of connection and tenderness have the ability to deepen faith in humanity and cultivate a sense of belongingness and oneness.

LOST IN THE WAVES

Come with me to a place of beauty,
We call it a beach,
It shows us the other side of a busy city.

Feel every wave as you pass by,
Feel each grain of sand stuck and dry,
To take themselves along with you, the sea shells cry.

One of the best sunsets this place can hold,
They look no less than a beautiful painting to behold,
The universe has created something more valuable than silver and gold.

Whilst everyone clicks as many pictures as their gallery saves,
I sit back and enjoy the moment they gave,
As I'm feeling lost in the waves.

The True Warrior - Bravery

Being able to regulate oneself is the pinnacle of bravery. After all, bravery not only consists of heroic deeds, but it also involves facing challenges, standing up to others, and facing others. Speaking our minds is a brave act as well. While bravery is more premeditated and requires putting fear aside, courage is experiencing fear, understanding the dangers, and choosing to act despite them. There are moments when bravery and courage are both correct. It also takes an extraordinary mind-set and confidence to be able to do this. It also requires a lot of grit and deep seated values for one to be brave in his actions as well as perspectives. I have been working on my quotient of bravery for a long time now. **It's a long journey and I am all set to tread this path- Have You?**
